

Juuso Vuorela

Information and Software Engineer Student

As a third-year undergraduate student in Information and Software Engineering at Jyväskylä University, I am highly interested in the field and eager to learn more. My strengths include strong collaborative skills, problem-solving abilities, persistence, and attention to detail. I am excited to apply my skills and knowledge to real-world problems and make a positive impact in the industry.

Finnish

Experience

Volunteer Work

2022-2023

Algo ry - Guild of Computer Engineering Students

Founding and board member

During my time as a founding member of Algo, I gained valuable experience in team work and decision-making. Algo's establishment was instrumental in fostering a sense of community and kickstarting Jyväskylä's teekkari culture. As the Corporate Relations Representative, I developed Algo's partnership program from scratch, leading to 25 successful collaborations with various companies. I also actively participated in decision-making and strategy development, in addition to creating and enforcing Algo's policies. I worked closely with others and collaborated effectively with our chairperson. This experience taught me valuable skills such as **communication, marketing, event planning, team leading, and being part of the team.**

Work

2022 - 2023

2M-IT

SERVICE DESK EMPLOYEE

I served as a Service Desk Employee and provided device and application support to healthcare professionals. This experience enabled me to develop and improve my **customer service, communication, teamwork, problem-solving, diligence, and efficiency skills.** Alongside my role, I was able to engage in studies and volunteer work, which taught me valuable lessons in **time management, self-management, and prioritization.**

2020

City of Jyväskylä

SPECIAL NEEDS ASSISTANT

As a assistant for primary school students and an after-school program leader for elementary school children, I was partly responsible for creating a safe and engaging environment for students to learn and grow. I also collaborated with other team members to develop and implement activities and games. I gained valuable experience in cultivating **responsibility, ingenuity, and collaborative skills.**
